New Orleans Police Superintendent Clarence Giarrusso would not go into details about "a possible conspiracy" to assassinate President Nixon during a visit to that city Monday. Nixon's open car motorcade was cancelled and security was tightened during the visit. Giarrusso emphasized that a former policeman the Secret Service asked he arrested might not be involved in that plot. (UPI)

Military Action Continues

SAIGON (UPI) — Communist forces launched a heavy attack on a government ranger base in the Central Highlands early today, but government troops drove them back and killed 89 of the attackers, military sources said.

The sources said fifteen hundred rangers were killed and 31 were wounded in the early morning assault on the base, located about 20 miles north-west of the Central Highlands city of Pleiku.

A South Vietnamese military spokesman, meanwhile, said it still is too early to tell if the Communists have begun a major offensive against the former imperial capital of Hue, where Communist gunners pounded government positions today for the fifth consecutive day.

The spokesman reported 64 Communist cease-fire violations between noon Monday and noon today.

In another development, a government spokesman in Teheran announced that Iran has agreed to replace Canada on the four-nation International Commission of Control and Supervision (ICCS). Iran still must be approved by the four signers of the Jan. 27 Vietnam peace accord—the United States, North and South Vietnam, and the Viet Cong.

The Communist artillery attacks on the defense perimeter of Hue, 400 miles north of Saigon, increased sharply Monday. Five government positions about 12 miles west and southwest of Hue were hit by a total of 1,280 rounds of mortars and 28 rounds of 122mm rockets, wounding one government infantryman.

"The enemy's activities have been intensified in the area but we cannot conclude that the enemy wants to launch a big offensive," the spokesman said. "Our positions are on the hills, carefully defended."

Military sources in Hue said Communist troops have openly built roads across hilly jungles west of the city to the A Shau Valley, a traditional Communist stronghold and terminus of the Ho Chi Minh supply trail.

Monticello Car Goes Into Lake

A Monticello woman escaped serious injury in a freakish accident Monday afternoon.

Officers said Shirley A. Erickson, 28, was enroute east on U.S. 24 when she attempted to pass a vehicle ahead of her that was starting to make a left turn at Lake Croft.

She lost control trying to avoid the turning vehicle, and her auto skidded off the road, back across twice and then slid into the lake.

She got out of the car in fairly shallow water and sustained only bumps and bruises. The incident was investigated by Trooper Richard Roth and Deputy Frank Johnson.

Soviets Chip At China

PARIS (UPI) —The Soviet Information Service news bulletin, supervised by the Soviet Embassy, said today Chinese leaders were increasing their campaign asking the population to prepare for a war with Russia.

The charges were the latest broadside fired at Peking by the publication which has accused China almost daily of scheming against Moscow.

Gaullist political sources said the apparent heightening of the propaganda war between Moscow and Peking worried President Georges Pompidou who is busy preparing for world policy talks with Chinese leaders during his state visit to Peking Sept. 11-18.

"To fan the war psychosis in its country the leadership of the People's Republic of China is actively using slogans of 'preparing for war' and by spreading the idea among the population that it would be waged against the Soviet Union," the Soviet News Bulletin said.

"Dozens of millions of people have been mobilized for the construction of military and engineering constructions, the digging of shelters and trenches," it said.

The publication said Chinese leaders first told the population Soviet Russia was equally as dangerous to them as the United States.

"Later, they (the Peking leaders) have broadened step by step the scope of differences and at present, have concentrated all their effort on pushing for a conflict between the Soviet Union and China on the level of State relations. Today, it is being said in Peking that the USSR is the 'enemy' of China, an 'enemy even more dangerous than oldstyle imperialism.' In their policies the Maoists today base themselves on the idea that Soviet-Chinese contradictions are 'antagonistic and that they represent the principal contradictions in China's relations with the outside world,'" the news bulletin said.

The Soviet charges, Gaullist sources said, were not new. But their growing insistence as well as broadsides on Russia from Peking were apparently increasing in intensity as the Chinese party Congress is coming near. The newspaper Le Monde reported from Peking Monday that China stood on the threshold of "great decisions."

Pompidou will be the first top Western leader to visit Peking since President Nixon's visit in February 1972. The French Communist party, known for its close ties to Soviet Russia, already has started accusing the Gaullist leadership of making foreign policy statements paralleling policy line expounded by China.

Nixon Loses Cool

SAN CLEMENTE, Calif. (UPI) —President Nixon, fuming over assassination precautions that denied him the cheering motorcade he awaited, grabbed Press Secretary Ron Ziegler by the lapel Monday, spun him around and shoved him angrily.

"I don't want the press with me, you take care of it," Nixon snapped at the apparently stunned Ziegler.

The incident took place in New Orleans after the Secret Service, saying it had word of an assassination plot, urged that the President not follow the highly publicized motorcade route that had been planned.

Nixon took another route although he had been looking forward to a warm welcome and friendly crowds to bolster his public standing, battered by Watergate.

The Secret Service announced the plot and the change of the motorcade route prior to Nixon's arrival so the expected crowds would not turn out and then be disappointed when the President did not pass.

When he arrived at the Western White House in San Clemente later in the day, his personal secretary for many years, Rose Mary Wood, greeted him with: "I was worried about you."

"The whole thing was ridiculous," the President was heard to reply.

"They called me last night and they canceled," he said, apparently referring to the motorcade route.

"They'll never cancel another one," he added.

Troops Seek Rebels Involved In Coup

VIENTIANE, Laos (UPI) — Government troops searched rice paddies outside Vietiane today for the last of the rebels in Monday's abortive coup and called on neighboring Thailand to seize any plotters managing to cross the border.

Government spokesmen said troops had captured 14 of the rebels, including Col. Pany Phoumitsavan, a deputy leader of the attempted rightist coup against Premier Souvanna Phouma's neutralist regime.

The government reported smashing the rebellion in seven hours Monday and said troops killed the leader, Thao Ma, a former air force commander who had been living in exile in Thailand.

A government announcement said today Vientiane sent Thailand a protest note after the unsuccessful coup asking how the rebels, all believed exiles, managed to cross into Laos from Thai territory.

The note claimed the rebels had long been under the protection of Thailand's military-backed government and asked officials in Bangkok to extradite any plotters captured across the border.

Souvanna Phouma met today with Phoumi Vongvichit, chief negotiator for the Communist Pathet Lao, for previously scheduled talks to work out a new coalition government. An official announcement said the Communist envoy congratulated the prime minister for putting down the coup attempt.

Loyalist artillerymen shot down the 41-year-old Ma's plane over Vientiane's Wattay Airport six and a half hours after the coup attempt and unofficial sources said troops summarily executed him when he attempted to flee the wreckage.

Michael Shot By Companion

DELPHI—The story in Monday's Phoros-Tribune and Press concerning an accidental shooting was in error.

Donald A. Michael, 18, of 231 W. Linden Ave., was accidentally shot in the left hip by a companion, Richard Lee Titus, as Michael sat under a tree after the youths had separated hunting squirrels.

The incident occurred six miles west of Loganport early Sunday. Michael was treated for the injury at Memorial Hospital.
